A Better Spa!

Our hot tubs are hassle-free, easy to operate & definitely luxurious.

At Sunrise Spas, we are committed to superior craftsmanship and luxury at an affordable price. We use the latest innovations to maximize your hot tub experience and minimize your maintenance needs.

We understand that a spa for your home is a significant investment, so we've built every one of our spas with materials that will last a lifetime. Plus, we've made maintenance and operating easier and less expensive, with a proprietary insulation and filtration system.

Classic Collection Features

Safety Features

- 1 • LED safety light
- 2 • Easy entry steps

Ambiance & Entertainment

- 3 • LED lit deck controls
- 4 • LED exterior lighting
- 5 • Soothing LED waterfall

Massage & Comfort

- 6 • Powerful hydrotherapy pumps
- 7 • Neck collar massage
- 8 • Comfort pillows
- 9 • Multi-level seating

Efficiency Features

- 10 • Whitewater oversized filtration
- 11 • Deluxe keypad & controls
- ✓ • Rockwool insulation
- ✓ • 4" heat saver cover

Strength and stability from the inside out

Every Classic spa starts with a solid foundation. Our polyethylene floor seals out critters and moisture while sealing in the heat.

Integrated into the sealed floor is our galvanized steel frame. Engineered to provide the strength and stability required to support over 3200 kg. Unlike wood frames, our galvanized steel structure is built to last. Not only is it 10 times stronger than wood, it will not crack, warp or rot and unlike wood it will not sustain termites or rodents.

The third component of our system is the polysteel cabinet system. The polysteel system provides superior insulating properties and unprecedented sound blocking characteristics. In addition to being completely resistant to rotting, cracking and peeling, our maintenance free cabinet has the look and feel of real wood.

Green Guard Roxul Insulation

Every Sunrise spa is insulated with our proprietary Green Guard Roxul Insulation.

This method of insulation captures and recirculates the spa's own heat energy throughout the interior cabinet, reducing the demand on the heater – saving you money.

Other benefits of our proprietary insulation:

- ✓ Won't absorb or retain moisture, like traditional spray foam insulation does, preventing mold and mildew build-up.
- ✓ Superior noise absorption makes Sunrise hot tubs some of the quietest spas on the market.
- ✓ Is inorganic and will not provide a food source necessary for bacteria or small animals to consume.

Spa Equipment

Superior control by Balboa watergroup

An advanced, state of the art spa controller provides the ultimate in ease of use, safety and reliability for every spa user. The Powerworks™ with M7 technology is a revolutionary new hardware/software platform that completely eliminates mechanical sensor switches and remote through-wall temperature sensors.

The M7 platform features two identical solid state sensors that mount inside the heater manifold. These “Smart Sensors” accurately and reliably measure water temperature while monitoring critical water conditions without the possibility of failure due to mechanical switch malfunction.

Designed to last

Technically and functionally superior, your Sunrise Spas hot tub has been designed in association with medical and engineering professionals to deliver years of trouble-free enjoyment.

Every aspect of the spa, from its structure to the mechanical operation, is recognized as industry leading. Additionally over 300 quality control check points are personally inspected by in-house engineers to ensure every step of the manufacturing process is up to the standards our reputation demands.

Control Panel

This system comes with a sleek control panel. It has a simple, yet extensive menu and the intuitive user navigation makes it easy to set the spa the way you like. It has a large back-lit LCD screen, reading easier than ever.

Aqua Sun Ozone

Aqua Sun Ozone water purification system will automatically maintain healthy, crystal clear water while greatly reducing chemical maintenance. Aquazone is a Corona Discharge ozone system that disinfects and cleans your spa water.

WaterWay 2.2Kw Dual Speed Pump

Designed with two speed motors that have four sets of insulated windings for increased efficiency and a 56-frame motor for added strength, cooler operating temperature and longer motor life.

Hydrotherapy jets

A variety of jet sizes and internal styles are used in unique seating patterns to achieve superior hydrotherapy in individual spa models. Therefore, not every jet described or pictured below is in every model. Not all jet internal styles are available in all jet sizes.

To adjust the water volume, simply turn the jet face clockwise to the off position or counter clockwise to the maximum position. If you move too hard to maximum you will release the internal from the jet body.

Lighting

LED Lit Waterfall

Enjoy a relaxing upper back massage while listening to the soothing sounds of the LED lit waterfall.

LED interior lighting

Enjoy your favourite mix of colour!

The luminescent LED perimeter lights create a dramatic effect below the waters' surface.

LED exterior lighting

Light your way with the LED illuminated corner lights making it easier to see the spas surroundings.

Classic Collection 670

**2 adults,
with
lounger**

**152 x 203
x 74 cm**

256 kg
*(empty
weight)*

**701
Litres**

Features

- 18 Two-Tone Hydrotherapy Jets
- Two-Tone Air Controls
- LED Multi-Colour Safety Light
- LED Illuminated Waterfall
- 13 x 8 cm Tapered Thermal Cover

Equipment

- User Friendly, Long Lasting Balboa Controls
- One 2.2Kw Dual Speed Jet Pump
- 3Kw Heating System
- 75 SQ FT Filtration System

Structure

- Capped Bottom Liner
- Galvanized SureSteel Support Structure
- Polysteel Exterior Cabinetry
- GreenGuard Roxul Insulation

Optional features

- Deluxe Acrylic Colour Upgrade
- Factory Installed Ozone

Classic Collection 770

**5 adults,
with
lounge**

**198 x 198
x 91cm**

COLOURS

Perspex[®] Acrylic Options

Every Sunrise Spas hot tub has an attractive interior finish made from continuous cast acrylic, produced by the renowned manufacturers of Perspex[®] acrylic sheet. This is superior to Ethylene, 'soft plastic' surfaces. The hard, non-porous surface resists stains, fading, scratches and chemical abuse. With the look of granite, pearl or metalescence, the extremely rugged and durable finish offers beauty and peace of mind.

Cabinet colours

Sunrise Spas Polysteel Exterior Cabinetry is a state of the art wood-alternative material that has the look and feel of natural wood without the maintenance. The material is impact resistant, impervious to weather or insect damage and will never splinter, crack or rot. The attractive exterior locks in heat and seals out cold air - providing a beautiful look and feel.
